

# Measuring Customer Satisfaction

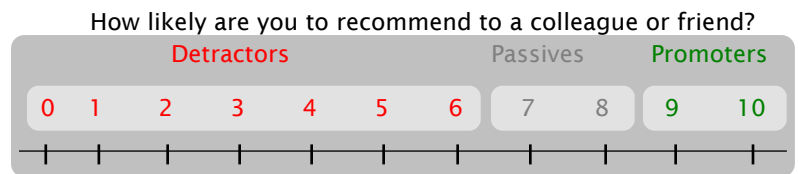

Many companies claim that they have the "Best service in the business" but few even have a way to measure how happy customers are. Here at Lioce Group (TLG) we have a system that allows us to capture feedback after every service call. We use the Net Promoter Score system [www.netpromoter.com](http://www.netpromoter.com)

The average N. American company has a Net Promoter Score® of 30.

Some well-loved companies reach scores into the 70s and 80s

It is both a loyalty metric and a discipline for using customer feedback to fuel profitable growth in your business.
